Subject: 2019 OxIS questionnaire

Thank you for your interest in the 2019 OxIS questionnaire.

In order to simplify the task of interviewers and improve the quality of the data the 2019 OxIS questionnaire was divided into 4 parts.

- Part 1 was a general questionnaire, asked of all respondents; 11 pages
- Part 2 was administered only to Internet users; 29 pages
- Part 3 was administered only to non-users; 16 pages
- Part 4 was administered only to ex-users; 21 pages

For convenience, all four questionnaires have been combined into a single pdf file, which directly follows this page.

Although this organization has advantages in terms of improved data quality, a disadvantage is that some questions are repeated in the different parts (e.g. age, gender, marital status, ethnicity, social grade, etc.). Each of these has been combined into the same variable in the data file.

INTRODUCTION:

Good morning/afternoon. I am conducting a survey in this area on behalf of Oxford University. It concerns how people live in Britain today and the role of the INTERNET and technologies in daily life. The views of someone in your household will be valuable to us **whether or not you/they use the Internet**. For every respondent who helps with this survey we will pay £5 as a thank you for their time.

IF RESPONDENT ASKS WHETHER THIS IS MARKET RESEARCH:

The research is for Oxford University and the questions in it are designed for the purpose of academic research.

IF RESPONDENT SOUNDS LIKE THEY WANT TO REFUSE, SAY:

For the purposes of our research project it is most important that we talk to a representative cross section of all people. Therefore, the views of someone in your household are extremely important to us and the interview will only take around 30 minutes to complete.

IF RESPONDENT SAYS THEY DON'T HAVE TIME:

The interview might not involve you personally.

For the purposes of this research I need to select, at random, one person in your household aged 18 OR OVER by choosing the person who will have their birthday next. (A member of your household is someone normally resident here who is related to you or living with you or a member of your family as a partner).

First of all can I ask you how many people including yourself NORMALLY RESIDENT in your household are aged 18 or older? CODE BELOW

And which person will have a birthday next? WRITE IN NAME OF RESPONDENT

IF RESPONDENT DOES NOT KNOW WHO HAS THE NEXT BIRTHDAY SAY:

If you don't know who has the next birthday could I ask whose first name starts with a letter closest to the beginning/end of the alphabet? INTERVIEWER: ASK TO SPEAK TO PERSON WITH NAME STARTING WITH A LETTER NEAREST **THE END** OF THE ALPHABET ON THE FIRST SUCH INTERVIEW, NEAREST TO **THE BEGINNING** OF THE ALPHABET ON SECOND INTERVIEW AND SO ON.

IF RESPONDENT IS NOT THE SAME AS PERSON WHO ANSWERED FIRST QUESTIONS:

Good morning/afternoon. I am conducting a survey in this area on behalf of Oxford University. It concerns how people live in Britain today and the role of the INTERNET and technologies in daily life. You have been selected as the person in this household that we really need to speak to - your opinions will be valuable to us **whether or not you use the Internet**. For every person who helps with this survey we will pay £5 as a thank you for their time.

IF RESPONDENT STILL SOUNDS LIKE THEY WANT TO REFUSE, SAY:

If you cannot spare the time at the moment I would really appreciate it if we could call you back at your own convenience over the next few days. As I said your own views are very important to us.
